

Medallia

Medallia Regulatory Suite

Achieve CMS compliance while increasing engagement and building trust with human-centered experiences

Medallia provides healthcare organizations with a seamless solution to achieve CMS compliance across all CAHPS programs, avoid reductions in Medicare and Medicaid reimbursements, and ensure consistent delivery of exceptional patient experiences.

Medallia is a CMS-authorized, multi-CAHPS approved vendor with over 45 years of conducting patient experience surveying. Our comprehensive CAHPS solutions ensure healthcare organizations satisfy CMS requirements across all mandatory programs from implementation to data submission.

In addition, Medallia supports integrating regulatory performance measures with valuable real time feedback to drive and improve CAHPS scores. This enables healthcare organizations to holistically capture the patient experience journey to build patient trust, drive clinical improvements, and improve health outcomes.

Medallia is approved to administer the following CAHPS surveys:

- Hospital CAHPS
- Outpatient and Ambulatory Surgery CAHPS
- Hospice CAHPS
- Home Health CAHPS
- In-Center Hemodialysis CAHPS
- Primary Care First PECS CAHPS
- CAHPS for Merit-Based Incentive Payment System (MIPS)

Medallia supports multiple CMS-approved survey methodologies including Mail Only, Telephone Only, Mixed Mode, and Web-based

Medallia Regulatory Suite

Our distinctive Regulatory Suite enables healthcare organizations to implement and meet CMS requirements. By leveraging the Medallia Experience Cloud™ platform, organizations can:

- Capture leading indicators to predict and improve lagging CAHPS measures
- Analyze CAHPS and real-time data in one seamless solution
- Identify actionable insights to drive meaningful change
