

A new way to pulse employees.

Convenient all-in-one solution to capture continuous and actionable feedback to know what's on employees' minds moment by moment.

Quickstart Employee Micropulse: Always-on, three-question survey to stay connected to the evolving needs of employees.

The future of work has transformed into the *present of work* with unprecedented speed, causing the workplace to be reinvented in real time. Companies that figure out how to best support employees through today's adversity will be the ones that prosper in the long run.

The Quickstart Employee Micropulse solution combines speed with ease and intelligence to provide companies with the clearest picture of how employees are doing, how their sentiment is shifting over time and how best to respond.

“Medallia has enabled us to pivot and engage our team with the employee micropulse – resulting in immediate insight on how our team is doing and how we can improve.”

- Craig Pintoff, United Rentals

Recognizing no two employees are alike, this one-of-a-kind solution empowers employees to give feedback their way -- via text, audio or video through Medallia's LivingLens product. Video is known to give 6x more information than an equivalent open-end text response.

The Quickstart Employee Micropulse Solution includes:

- A pre-configured, all-in-one solution fully launched within five to 10 business days with no IT support required
- One feeded or feedless always-on survey with three pre-built questions
- AskNow to add additional questions with one click
- Five solutions to choose from including 'Return to Workplace' and 'Employee Recognition'
- Advanced audio and video feedback capabilities powered by LivingLens
- Text Analytics with preset employee and Covid-19 topic sets
- Integrated, real-time dashboard
